Hit Him on the Head.

Lonnie Burden is under arrest on a charge of assaulting Harvey Tanner with the intent to kill in the outskirts of Madisonville Monday night. It is said that Burden struck Tanner on the head with a beer bottle and the latter has since been in a precarious condition. It is not probable that an examining trial will be held until some decided change is manifest in his condition.

COUGHT TO RISE RAPIDLY.

A Combine that Will Control Ninety Per Cent of the Yeast and Vinegar Output.

ABSORBED BY AMERICAN VINEGAR CO.

Forty factories in various parts of the country will be in operation and Trade will be supplied from the nearest Point of Manufacture—A Four Years' War End.

Chicago, April 30.—The Tribune says: "After the middle of May there will be but one vinegar factory in Chicago, the output of which is not controlled by the American Vinegar Co., which is being financed by Henry Clewes & Co., of New York. Four Chicago companies have given up the purchase of their factories as follows: Spielman Bros. Co., W. H. Runge Co., Wm. Fleming & Co. and the Prussing Vinegar Co."

The estimated value of the four Chicago plants is \$1,000,000. After their absorption by the American Vinegar Co., that corporation will, it is said, control 90 per cent of the vinegar and yeast output in the United States. Forty factories in various parts of the country, in territory extending from Omaha to Boston, and from Dubuque to Louisville, will be in the combination. In all these factories yeast is an important by-product.

The consolidation of all the interests will terminate a four years' war which has resulted disastrously to yeast prices.

Yeast will now advance. Yeast, for some time, has been selling at about ten cents a pound, while the cost of manufacture is about 14 cents. It is expected the price of yeast will be raised to the latter figure. The future price of vinegar will be less affected, and may be neither raised nor lowered. Some 30 factories in the country will be closed. In all cases the trade will be supplied from the nearest point of manufacture, saving much in freight rates.

The annual vinegar output is 700,000 barrels.

ADMIRAL KAUTZ SUSTAINED.

His Course Approved by the President—Cautious to Avoid Unnecessary Bloodshed.

Washington, May 3.—It is denied officially here that any undue restraint has been imposed upon Admiral Kautz, which should encourage the insurgents in Samon. On the contrary Admiral Kautz has been advised that the president supports him in all that he has done; that he is entirely satisfied with his conduct, and that the only injunction laid upon the admiral has been to avoid unnecessary slaughter and bloodshed. This injunction is not understood to restrain the officer in any way from such military and naval operations as in his opinion are necessary to protect fully the interests of the United States, British and German residents in Samon, for it is expressly understood that Admiral Kautz is present simply for the purpose of carrying out the treaty obligations as to the insular agreement and not as a representative of any one power.

So far no advice has come to either state or navy departments as of the date these last press dispatches; hence it is assumed that no events of very great importance have occurred warranting the sending of a cablegram by either Admiral Kautz or United States Consul Osborn.

PATRIOTISM TO BE REWARDED.

The President's Admiration for the Post-Volunteers Who Stayed by the Government.

Washington, May 3.—The president has issued several of his congressional visitors from the west of his deep appreciation of the services rendered by the volunteers, especially to those who had remained with their regiments since the proclamation of peace. He has expressed to these senators representatives his earnest desire to reward in some fitting way the courage and endurance of the volunteers who had the right to be discharged upon demand, but who have continued in the service and materially assisted in bringing the Philippine war to a close.

It is more than likely that President McKelvey will recommend to congress the making a separate medal for these volunteers, which will differ from the medal of honor and yet help a memorial to the Philippine campaign and a recognition of the government's gratitude to those who have upheld the flag and supported the government.

THE PRESIDENT IS SANGUINE.

Conditions hopeful.

The president expressed the opinion that the embassy in light, and said he believed that the Philippines will not hold out much longer. He said that the conditions are most hopeful. The fact that negotiations for peace are in progress has stopped the calling out of the 35,000 additional volunteers.

## ANNOUNCEMENT.

PRATT—We are authorized to announce Judge Clifton J. Pratt, of Hopkins County, as a candidate for the nomination for Governor of the State of Kentucky, subject to the action of the Republican party.

A CHICAGO professor who traveled with W. J. Bryan in Mexico says Bryan was his own press agent and wrote notices of enthusiastic receptions in towns where natives had been ordered to go to the depot and meet him. Bryan's versatility is not to be questioned.

EDWARD ATKINSON, of Boston, a distinguished man withal, but who is losing his identity as an American, is bringing down upon his head the anathemas of Americans everywhere because he, as Vice President of the "Anti-Imperialist League," has sent broadcast to the American soldiers and sailors in the Philippines, pamphlets attacking the American foreign policy and calculated to produce discontent and even mutiny among our soldiers there. Mr. Atkinson seems not to have conceived the gravity of his offense, but it is treasonable and even so high an authority as a member of the Cabinet says the act is punishable by imprisonment and fine. The Postmaster General has directed that these pamphlets be taken from the mails to Manila.

That the market for skilled labor is in a very favorable condition at present, says *Bradstreet's*, is attested by the fact that the usual widespread May 1 labor demonstrations for higher wages or the redress of other real or fancied grievances are conspicuous by their absence this year. This condition is, indeed, something of an anomaly; since, as a rule, May 1 for a number of years back has been looked upon as a favorite date for embarking on labor struggles. Happily, however, this year so far as present indications are concerned, bids fair to prove an exception to the rule. Here and there strikes of trifling consequence, at least as far as the number involved is concerned, are to be met with, but as a matter of fact they have little bearing on the general industrial situation. Aside from the failure of unrest to materialize, and partly perhaps a moving influence there, are the continued advances that are being made in wages, several instances of which have come to view this week.

## Silver Service.

The silver service for the battleship Kentucky is to be made by a Philadelphia firm at a cost of six thousand dollars. To the credit of the people of the State it will be finer than any similar set excepting, perhaps, those of the Indiana or the New York. There are to be seventy pieces and the loving cup will be adorned with a likeness of Daniel Boone and the seal of Kentucky. Kentuckians will have reason to be proud of this magnificent gift to the State's great make.

## The Logical Candidate.

Judge Clifton J. Pratt, the logical, clean, popular candidate for the Republican nomination for Governor of Kentucky, is being overwhelmed with letters from leading and representative Republicans all over the State of Kentucky. They endorse him and have urged his announcement. It is only this that has induced Judge Pratt to again enter the political arena. With the family strife of the past in mind, the Republicans of the State who have the good of the party at heart and look to the time of harmony, unity and success now turn naturally to Judge Pratt as the candidate who can carry to success the banner of good government in the State of Kentucky. He has been and is now free entirely from any alliance or identification with any of the factional feeling or strife that has played havoc in the past with the party in the State. A broad-gauge man, an able jurist, a finished speaker, a careful politician with unsullied record, Judge Pratt is the logical candidate of the hour and with him in the lead, the Republicans will again carry Kentucky, a triumph for which they can have no hope if by any means the representative of any faction should ambush and capture the nomination.

The colored men of the State are strongly for him; scarce a Republican but will support him heartily at the polls; and he commands the respect and will get the votes of sound money Democrats and others who are dissatisfied with other candidates.

Judge Pratt is the logical candidate.

## More Violence.

More dreadful scenes of excessive and blood-thirsty violence have been enacted at Wardner, Idaho, in the region of the terrible and deadly riots of the Coeur d'Alene Country in 1872. This utter desperation and disregard for life or property rights is dreadful to contemplate.

It was a demonstration of the union miners against the union miners and the owners of the properties where these men were employed. Three thousand pounds of giant powder were used and the property of the Bunker Hill and Sullivan company was demolished at a loss of \$250,000 to \$300,000.

It is easy to recall the denunciation of the miner's union, uttered recently at Pana, Ill., by a Methodist preacher upon occasion of a man murdered by those who hunted in the streets what they called "scabs" and shot them down like dogs. This fearless man of God denounced the "mob of lawless and irresponsible men" who "have determined that other men, born in this land, native citizens of this great commonwealth, shall not earn their honest living by the work of their hands unless under the dictates of the alien officers of a lawless and anarchistic miners' union."

These words fit the western case with equal force and the preacher's definition of a "scab" is good the world over. That part of his utterances concerning "scabs" will bear repeating again. He said:

I saw them with loaded guns searching places of business, not for criminals, not for those who had been engaged in riot, but for what they called the scabs, meaning thereby an honest man who preferred earning his bread to living in idleness upon the earnings of other people. I heard them with horrible oaths exhorting each other to shoot the heart out of him on sight. A dozen armed ruffians against an unarmed man who was only endeavoring to keep out of trouble. And this I say again, not a criminal, but an honest man whose only offense was that he chose rather to work for his daily bread than that his family should exist upon charity or alms.

The story is repeated and lays more and greater guilt at the door of the unwise and vicious leaders of labor organizations that do deeds of violence and would rob the individual of his freedom and his individuality.

## Pratt for Governor.

Clifton J. Pratt was born in Woodford county, Illinois, and came to Kentucky in boyhood. His father was a native of Virginia and emigrated to Illinois in the early settlement of that State, and here the now distinguished jurist and gentleman was given birth and an humble start in a life which he was in after years to elevate and dignify by his own personal efforts and achievements of mind and heart. He was reared a poor boy and his education came by his own individual hard efforts and earnest application. What he is he has made himself and the honors and high station he has attained in the legal, the judicial, the intellectual, the moral and the social world are his by right of conquest; for by his own good efforts he has won them.

Judge Pratt studied law at Madisonville with O. Waddill and has practiced his profession continuously there and with eminent success for more than twenty-five years. He has enjoyed an exceptionally large practice and gained a most enviable reputation as a lawyer and a speaker at the bar and before the people. He was elected to the State Senate and served one term, in 1881-82. At the expiration of this term he was tendered a re-nomination by both counties, Hopkins and Christian, but declined on account of the fact that the race for and the incumbency of the office would seriously interfere with his law practice. In 1892 he was elected to the office of Circuit Judge in the Fourth Judicial district composed of the counties of Hopkins, Caldwell, Crittenden and Livingston. His record on the bench is irreproachable for ability, dispatch and unbiased justice of decision.

An interesting incident of the man's humble beginning is the fact that one of the first men to shake Mr. Pratt's hand after he received the nomination for Circuit Judge was an old colored man with whom he had worked at twenty-five cents a day when a boy. And the colored men are in a body enthusiastically for Judge Pratt for Governor. Judge Pratt has been a consistent Republican and has kept in line with the party organization and the support of its candidates. He has never been a party to any

In other months we forget the harsh winds of Spring. But they have their use, as some say, to blow out the bad air accumulated after winter storms and spring thaws. There is far more important accumulation of badness in the veins and arteries of humanity, which needs Hood's Sarsaparilla.

fractional fight in the State; has never been, is not and never will be the candidate or representative of any faction. He has kept aloof and refused to become in any way identified with any faction.

Judge Clifton J. Pratt is the man the Republicans need as their candidate for Governor. He is a man who will carry a large vote outside party lines because of his prominence and well known ability. If he is nominated and elected the people of Kentucky are sure of an administration above reproach.

## Louisville Music Festival Notes.

Music lovers will have an opportunity of hearing some of the greatest artists of Europe and America at the Louisville May Festival on May 8, 9 and 10. No expense has been spared to make the five concerts of the Festival as attractive as possible.

The Music Festival to be held in Louisville on May 8th, 9th and 10th, should be well patronized by the people of Kentucky, Tennessee and Southern Indiana. It is an enterprise that commends itself to all lovers of music, as well as to those who are interested in the general development of Louisville and surrounding territory.

The citizens of Louisville have raised a guarantee fund to cover the expenses of the May Music Festival, May 8th, 9th and 10th, and prices will be lower than for any other similar festival ever given. Season tickets will be only \$5 and \$7 for the five concerts in which some of the greatest singers in the world, and the greatest operatic soprano, will appear. Madame Marcella Sembrich, who is to sing in two concerts of the Louisville May Music Festival, May 8th, 9th and 10th, is now confessedly the greatest operatic singer on the stage, with the possible exception of Calve. She was the undisputed star of the New York grand opera season last winter and spring, and yet the De Reszke brothers were in the east. Her engagement has been made at very great expense. Her triumphs on this tour rival those of Jenny Lind.

A Louisville artist who is about to make a European tour as the piano soloist of a famous Berlin orchestra, will appear in the Louisville Music Festival, May 8th, 9th and 10th. She is Miss Zudie Harris who has but recently returned from ten years study in Germany. Her professional debut in Louisville was a remarkable personal and artistic triumph. Miss Harris is pronounced by competent critics one of the greatest pianists in America. Miss Harris is the daughter of a wealthy banker but has preferred art to society.

Signor Giuseppe Campanari, who sings in the Louisville May Music Festival Concerts, to be given May 8th, 9th and 10th, is the foremost of operatic baritones. Other male singers will be Myron Whitney, Jr., George Hamlin, Clarence Shirley, Evan Williams and Gwynn Miles. The women singers will be Madame Sembrich, Mrs. Josephine Jacoby, Misses Sara Anderson, Blanche Towle and Anna Lohbiller. Miss Zudie Harris will be the pianist.

## Difference in Bonds.

From the Western (Neb.) Wave.  
McKinley sold 3 per cent. bonds to the people; Cleveland sold 4 1/2 per cent. bonds to a syndicate of bankers. The total of our public debt is a mere bagatelle compared with our wealth and resources. The continuation of the Republican party in power, which would mean continued prosperity, would enable the Government to pay it off in a few years.

## DOWN IN THE MINES.

Dick Croft and W. C. Wilson, of South Diamond, were here Saturday.

The foreman of the Monarch mine has resigned and we have failed to learn the name of the new appointee.

The rumor is afloat that what is called by miners a "squeeze" has occurred at the Monarch mine, about fifteen rooms being affected by it.

Joe Salmon, who has been manipulating the scales for the Hiley Coal Co., will soon move to Earlington and engage in the lively business.

Secretary Anderson, of the Monarch Coal Company, made a business trip South last week. He is ever on the lookout for new customers.

As a matter of course the manufacturers of southern Indiana feel perfectly easy because they will know western Kentucky is close by and can supply all necessary coal.

Foreman Thomas Robinson, of the Empire Coal Co., on account of failing health came down last Thursday to spend a few days, while undergoing medical treatment.

Quite a hot contest is now on for the secretaryship of the Barnsley Coal Co., several candidates are hard at work showing up their superior qualifications for the office.

Mr. John Hogan, the all-around man at Hecia, came near meeting with a serious accident one day last week falling from a ladder, his head striking first. His neck was badly strained.

The St. Bernard Coal Company is now shipping the entire daily production of the coke works. Several cars are now shipped daily to Clarksville, Tenn., for smelting purposes.

The present indications are that the Earlington mine will have fairly good work again this summer. The miners here are workers and not strikers, and they receive their reward.

The stockholders of the Barnsley mine will soon hold their annual election of officers and dispose of other important business on hand. The report is out that there is a number of the stockholders who favor selling the mine.

The United Mine Workers Journal of last issue contains an appeal for aid for the six thousand miners of Arkansas who are now in idleness through the orders of the U. M. W.'s leaders. What a pity that those blind leaders could not be made to hear the entire cost of the strikes.

In southern Indiana as in other coal regions, the miner during the summer months is not blessed with steady employment. In fact if they can find sufficient work to raise the necessary means for family support they are satisfied, and such being the case how foolish it does look for them to take the advice of Boss Dilcher and throw down their shovels and beg the brother at work for food and clothing.

Boss Dilcher who has charge of the southern Indiana strike says the cause of trouble was the discharge of thirty-six miners at Evansville while from other sources we hear that the reason the men are now idle is that the operators of southern Indiana refuse to pay the scale of wages demanded and as coal orders are few and far between during the hot summer months they close their mines before yielding to unjust demands.

A few weeks ago the miners of Arkansas were contented, the demand for their labor was good and harmony between themselves and employer prevailed. But the wolf in sheep's clothing crept in among the flock and soon after the work of the agitator began to show up and discord soon took the place of peace and harmony, and the result was that thousands of miners upon whom women and children depended for a living were persuaded to quit work and are now relying upon the charity of miners who are at work in other states for their daily bread, which we are satisfied is not as plentiful as the manna that fell from Heaven.

Few places of worship in the country have more interest than the Miners' Sanctuary in the Myndy Newydd (New Mountain) colliery, near Swansea, South Wales. Situated 750 feet below the surface of the earth, with four long rows of pews to sustain the roof, a rude desk on a large lump of coal for a pulpit, and a series of

will generally correct this difficulty.

If you will put from one-fourth to half a teaspoonful in baby's bottle three or four times a day you will soon see a marked improvement. For larger children, from half to a teaspoonful, according to age, dissolved in their milk, if you so desire, will very soon show its great nourishing power. If the mother's milk does not nourish the baby, she needs the emulsion. It will show an effect at once both upon mother and child.

rough-hewn planks as "pews" it is indeed the strangest of the many strange hells of wild Wales.

Every Monday morning, without a break for fifty years, colliers have crowded into the novel apartment to ask the blessing of Providence upon the week's work. To the eldest miner present the conduct of the service is customarily intrusted, but regularly ordained divines have not infrequently descended into the mine before the Monday's "turn" has commenced, and the little whitewashed walls of the little chapel have resounded with that Celtic fervor which Welshmen speak of as the hwy.

One motto there is painted near the pulpit: "O's eob heb ddim serid eob heb Dduw, casy efo deyrnys dan wadeu Myddd Curig." Freely interpreted, that is: "If it is night without stars, it is not night without God, for he reigns under the foundations of the mountains."

Whether it be ascribed to good luck, to good management or to the responsive protection of Providence, it is a fact that for the last half century Myndy Newydd colliery has been singularly free from serious accidents. The colliery is owned by Messrs. Vivian & Sons, and the late Lord Swavesey did much to encourage the devotional exercises in the pit.—London Leader.

## GREEN W. PRITCHETT.

Gold Democrat in 1896, Now a Full-Fledged Republican.

NOTHING GOOD IN DEMOCRATIC PARTY.

The following letter written by Green W. Pritchett, a prominent man and tobacco dealer of Corydon, Ky., sets forth that gentleman's strong arguments, showing why he has quit the Democratic party, and, of course, why other men of conviction should do likewise. It makes interesting reading and contains argument that will be appreciated by the readers of THE BEE, hence we reproduce it in full. It first appeared in the Henderson *Gleaner* of April 7, 1899:

The Confederate flag went down forever in defeat thirty-four years ago. In all these years the Democratic party has been trampled but two terms with the Presidency. And not a single pledge made to the people did that party keep, and for this betrayal of the trust the people—not the party—but the sovereign people, relegated the party to the shades of the past—eternal rest!

Since the war the Democratic party has ceased to exist on old Jeffersonian lines. It is as dead as the old Whig party, the Know Nothing party and the Abolition party.

Principles were abandoned and vicious policies substituted. Today the leaders of the so-called Democratic party are desperate adventurers, opposing the progress of the government and the tranquility of the people at every step, cutting each other's throats in frantic efforts to secure the offices wherever they are in the ascendancy.

The first downward step of the party was the nomination of Greeley for the Presidency—a good man, no doubt—but in no wise a representative of Democracy. This was a criminal compromise of honor which has grown space until today, if the editorials of the free press papers are to be believed, these people rejoice at every repulse of our army and gloat over the death of our soldiers in war.

We captured the Philippines in war with Spain, and while our army was peacefully awaiting the ratification of the treaty of peace, one Aguinaldo, a renegade and traitor, headed a band of revolutionists and fired upon our soldiers. And as he retreats before our advancing force he lays waste the country, burning and destroying without remorse the property and homes of his own people, leaving the aged and decrepit, the women and children, without shelter, raiment or food. He even had one of his leading generals beheaded because the man advised him that it was useless to continue the struggle against American forces.

And yet these so-called Democrats—these Anties—herald this man to the world as a Washington, and abuse their own country for punishing this incendiary and murderer.

If ever there was a villain who deserved hanging, Aguinaldo deserves it. This party claims that they could bring prosperity and wealth to the country, and fill the pockets of the people with jingling dollars, by legislation, but the sober minded among them know better though they have not had the courage to assert their convictions and break away from such disastrous leadership. These people oppose anything—are old-time soreheads in every thing. Nothing suits them, and everything is going wrong. If they could only get the offices the country

## NARROW ESCAPE.

Telegraph Pole Falls With Two Men at It's Top.

A telegraph pole fell here Thursday morning while two linemen were at its top and both narrowly escaped death. A timber lying on the ground, across which the pole fell, saved the life of John Watkins the man who was on the under side of the pole as it fell.

The fall occurred on ground that was for the most part covered with railroad iron and timbers, but the men were fortunate enough to miss all of these. Watkins came from Henderson and had worked for the Cumberland Telephone Company several months. Craig is a Madisonville man. Watkins was severely bruised and painfully hurt about the hips. Craig was much shaken up and was bruised somewhat through the chest, but was able to take care of himself as soon as he regained consciousness. Both men were unconscious for a time.

The accident was one that could have been avoided by a little care, but men in hazardous occupations forget their hazard and take the risk. So it was in this case. G. E. Bernecker, local manager, for the Telephone company at Madisonville, and Lacy Parrish were also of the party. They were to lower some wires and started to dig about and sink the pole two feet deeper. After quite an excavation had been made about the base of the pole, which was one of Western Union line, they decided to take the required two feet off the pole's top. Without waiting to fill the hole they had dug about the pole they mounted to its top with the result as stated. Before the pole reached the ground it gave a sudden turn and the boys had no time to save themselves.

**Louisville Earthquake.**  
A violent earthquake scared the inhabitants of Louisville early Saturday night, and lasted 15 seconds. The damage was trivial. There was but one shock but it was more violent than has been felt for years in this section which Prof. E. H. Mark says is visited perhaps oftener by earthquakes than any other section of the country.

Speaking of earthquakes Prof. Mark said:  
"In 1811 Kentucky was visited by a violent shock. It was then that a portion of a forest in Tennessee was transformed into a lake, now known to Louisville sportsmen as Reelfoot Lake. Frequently the seismic area will not extend over fifty miles in all directions from the center of the vibrations. These earthquakes are rarely violent, being caused by a slight slip in the surface in the immediate locality."

The fishermen have been abroad in the land and the water during the past week. Loch Mary's beautiful banks have been lined with anglers of all sizes, sexes and conditions. Some neat catches have been made but nothing to chronicle to the world as a record breaker.

The principal beauty about this matter is that we, all of us, and especially those who have learned Isaac Walton's secrets or who have patience to sit and watch a cork all day with the faith that there are many fine fish at the bottom that may be caught by bait and skill, we all have a day's or an hour's outing at our very doors—hidden away from the smoke of the town by beautiful groves and swelling and verdant hillsides. The recreation thus just now attained is greatly enjoyed by those who have had and still have such constant work about the coal and coke works and the railroad yards.

**Preach at Grapevine.**  
Elder I. H. Teel, pastor of the Christian Church here will preach at Grapevine on the second Sunday in May, the 13th instant, at 3 o'clock p. m., subject, "God's Providence." The roads are getting good and Earlington will be represented at this service, which is just a pleasant drive removed from Earlington.

## MEETING CLOSED.

Gratifying Number of Additions to the M. E. Church South.

REV. CROWE GONE TO SEBREE

The protracted meeting which has been in progress at the M. E. Church, South, for the past three weeks, under the preaching of Rev. John M. Crowe, of Louisville, closed with the services of Sunday on which day Mr. Crowe preached three times, morning and evening at the church and afternoon at Assembly Hall to men only.

The church was full to overflowing Sunday evening and at the close of an impressive sermon, Rev. Crowe assisted the pastor, Rev. Roscoe M. Wheat, in receiving a large number of new members into the church, and the pastor not yet having been ordained, Rev. Crowe administered the ordinance of baptism.

The preaching of the distinguished evangelist has been well received and men of all denominations who have heard express their unqualified approval of the preacher and his preaching. He has done a good work on broad lines.

Thirteen conversions are reported and there were twenty additions to the M. E. Church, South, upon profession of faith and by letter. Most of these new members were received into the church as a class Sunday evening in the formal manner and given a handshaking welcome by the congregation.

Following is a list of the newly added members:

Mesdames Jennie E. Moore, Mary Sisson; Comma Watts; Mary J. Murphy; Della Brooks; Misses Effie Stokes; Mary Gill; Celeste Moore; Leona Hibbs; Manie Holloway; Hazel Fawcett; Sadie Stokes; Katie Lamb; Myrtle Davis; Mary Brooks; Nannie Browning. Messrs W. A. Sisson; Oscar S. Bonham; Luther V. Koontz and Clarence Clark.

Rev. Crowe promises that if the pastor is sent to Earlington again next year he will come again and hold another meeting. And it seems certain that if a vote of the Earlington congregation could compass these ends both these things would come to pass.

**Green River Valley Association.**

A meeting of the people of the Green River Valley has been called to be held at Calhoun on May 11 to discuss the project of organizing an association to promote immigration and otherwise develop and improve that section of the State. There is much vacant and uncultivated land along Green River and if an organization is effected one of its principal objects will be to promote its settlement and cultivation by immigrants from other sections. Green River packets will carry passengers to the meeting at half-fare rates.

**Wonderful Discovery.**

Louisville, Ala., April 15, 1898. New Spencer Medicine Co. Dear Sir:—I have been troubled with liver and stomach complaint. I had no appetite and my general health was very bad. I took medicine from four different doctors and they failed to do me any good. I got no relief until I began to use your valuable Nubian Tea. I used about two dollars worth of it and it did me more good than all the medicine I ever took. I have gained thirty-five pounds in weight and my health is very good. I can sleep soundly and exclaim, "I feel like a new man." I can recommend your Nubian Tea to the world as being a God-send to any community. Any one who doubts this statement can write BAKER. Mr. Karl Taylor, who has worked so faithfully and well in charge of the chorus during the protracted meeting conducted by Rev. John M. Crowe at the M. E. Church, South, which closed Sunday, went to Henderson on Tuesday morning to take charge of a class in vocal music. This is his vocation and he works in the interim in meetings as he has done here. Mr. Taylor goes from Earlington with the best wishes of all the people and, as he has been very popular with the young ladies, he may hear away something more than the good wishes of some.

**Mistaken Appeal.**

From the Lexington Herald.  
A sanctification jury in the Sommers case in Frankfort got down on its knees Friday and asked God to guide that body in the making of a righteous verdict. The general impression among the politicians was that it was unwise to especially call the Lord's attention to the Sommers case at all.

## TO BUILD A HOSPITAL.

Gentleman Well Known in Earlington is a Benefactor to His Home Town.

The following clipping from a paper published at Montague City, Mass., tells how Mr. B. N. Farren is to become a public benefactor to his home town and surrounding country. He has projected a hospital which he will establish and maintain on broad lines for the public good.

This news comes as no surprise to the people of Earlington, many of whom have known Mr. Farren for many years, and where his beneficence has been liberally manifested from time to time in munificent church enterprise. Mr. Farren is one of the largest stockholders and a director in the St. Bernard Coal Company.

**A Hospital for Montague Through the Benevolence of one of Her Worthiest Citizens.**

B. N. Farren, Esq., for forty years one of the leading citizens of this county, a man of exquisite culture and fine tastes, well traveled, with the broadmindedness of wide observation of all countries, and all peoples, has decided to create and endow for the benefit of mankind locally a hospital that shall be the home and shelter of the invalid poor without fee or without price, or the refuge of the well-to-do sick who may desire the best that is vouchsafed mankind in treatment and care at a commensurate compensation. It will be unlike anything of the kind usually set up ostensibly for the good of our fellow man, in that it will be devised, maintained and controlled in the wisest manner, without bickering, fretful jealousies or unwieldy management, and will be the poor man's bays of rest in the time of his direst need—sickness—without thought or bother of his cost. Mr. Farren asks no favors in disclosing his plans. He simply asks the town to mend the road above what used to be the Volney Warner place to his own residence, a wretched piece of highway, and restore the country road to its true location near the electric railroad tracks, so that travel might be further diverted from a building that must be kept quiet, and surrounded with beautiful lawns. The interested gentleman will buy, if he can, the small building now owned by the Burnham heirs and move it away from the premises, as will the Ruggs store get out of the way. He has plans already drawn for the building he intends to erect, and for such changes in the Oakman mansion as may be necessary. He will come to Montague City very soon, and will begin work at once, if nothing unforeseen interferes with his plans. Mr. Farren has been a generous man all his days, quiet and unostentatious and his benevolence has made thousands of his fellow men happy and thoughtful of his generosity, but this last act will without doubt keep his memory green to generations yet to come.

## LIEUT. PAUL PRICE WRITES.

Boys of Company A in Good Trim and High Spirits.

PETE MORGAN HURT IN CUBA.

Mayor Burr is in receipt of a letter from Lieut. Paul P. Price written at "Camp Onward," Savannah, Ga., under date April 30, which is full of the spirit of pleasant anticipation which all the boys of the Third Kentucky entertain as to their early homecoming. Paul has fallen into the hands of friends outside of Camp at Savannah and is enjoying his stay there as much as is possible while making up his reports and turning in Quartermaster and commissary supplies.

Lieut. Price writes that Pete Morgan, of Earlington, is in Cuba, having been left behind because of injuries he received the day the regiment left La Union for Matanzas. He writes: "A team ran away and Pete in endeavoring to stop them was knocked down and his knee cap dislocated. We left him in the division hospital at Matanzas. He is getting along nicely and may get here in time to go home with us."

If the expectations of the boys of Company A are realized they will be mustered out on May 16 and will come direct home—most of them—the Company reaching Madisonville during the State meeting of the Christian Endeavorers when hospitality will be standing with wide-open doors and in good practice.

Thankful words written by Mrs. Ada E. Hart, of Groton, S. D. "Was taken with a bad cold which settled on my lungs, coughed set in and finally terminated in Consumption. My husband was advised to get Dr. King's Nubian Tea for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles. It has cured me, and thank God, I am saved and now a well and healthy woman." Trial bottles free at St. Bernard Drug Store. Regular size 50 cents and \$1.00. Guaranteed or price refunded.

## DEFENDING THE NATION.

Catarrh is our country's enemy. Lagrippe, lung troubles and other diseases of the mucous membrane take hold of our people and fatal results follow with alarming frequency. All of these troubles are catarrhs, and cannot be cured where the membranes are clean and healthy.

Mrs. Lou Davis, Fayetteville, Tenn., tells in her letter how Dr. Hartman's great catarrh remedy, Peruna, cured her of a lagrippe and serious lung complication. She says:

"I was afflicted with a disease commonly known as lagrippe two years ago; the doctors said I had consumption. I got one bottle of Peruna and the second night my cough stopped. I took several bottles, and I will say that I believe I would be a dead woman now if it had not been for Peruna."

Mary M. Frutt, Palpa, Mo., says:

"I had a lagrippe for three successive years; it seemed to get a tighter hold on me each year. It seemed I was in the jaws of death. What had helped me before would not do me any good. I saw an advertisement of Peruna. I procured two bottles and it cured me. I have not felt any symptoms since. You may use this in any way you please."

**Nashville's May Festival.**

Ten thousand dollars has been subscribed to the fund that was raised by the merchants of Nashville to insure the success of their great May Festival, which begins May 16 with parades and contests by the fire departments of Nashville and many other cities. Hand-some prizes have been offered in these contests of speed, etc., and this will be a great feature. The women of Nashville and of almost every city and town hereabouts are greatly interested in the splendid floral parade which will be had one day, and in which hundreds of beautifully decorated carriages will take part, the society women of all cities in the State being represented. Mrs. J. W. Thomas is in charge of this part of the week's festivities, and she has never found out what failure means as applied to a public enterprise. Committees from every section of the city of Nashville are enthusiastically working night and day and the determination is to make this parade the most beautiful ever seen in this country, and even surpassing the grand pageant seen at the Exposition on Kate Kirkman Day. Fire-works such as have never before been seen in Nashville and music by the greatest bands, Bellstedt-Ballenberg Band, are among the other attractions daily. The railroads have given a rate of a single fare for the round trip for the whole week.

The special correspondence from the Philippines in the current issue of Harper's Weekly is of exceptional interest, as it contains a fascinating narrative of The Philippine Revolt—in Trench and Gunboat," by John F. Bass. According to Mr. Bass the Spaniards have done their best to make trouble by circulating false reports in both camps. One of them said to him: "I speak to you as a Spaniard and an enemy of the United States. If fifty insurgents are killed, good; if the insurgents kill one hundred Americans, better; if the Americans in turn kill two hundred insurgents, best of all."
